

REQUEST FOR PROFESSIONAL* ACCESS TO THE REGISTER OF BENEFICIAL OWNERS (RBE)

1

To submit a request for access to the RBE, professionals **must have** a **private or PRO LuxTrust certificate**.

This certificate is required for **identification** on the website **LBR.lu**

2

Log in to the website **LBR.lu**, then click on **Help** in the main navigation menu. Then select the **Beneficial Owners Register** category to download the **access agreement** and its **technical annex**.

3

Complete and sign the required documents (electronically or by hand).

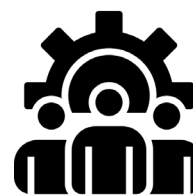

4

Send the signed documents using the **contact form** available under **Support** in the main navigation menu of the LBR website.

5

Processing of the request by LBR: **approval and opening** of a "customer" account allowing access to the RBE with designation of the **main administrator**.

6

The main administrator may, in turn and **under their own responsibility**, add other users who also have a **private or PRO LuxTrust certificate** to this account via an access management application.

All users will then be able to consult the RBE data and order extracts using the certificate registered in their name by the main administrator.
